EXPERIENCE

CatalystCreativ, Software Developer Contract

January 2019 - Present

- Utilized Agile Development and object-oriented principles to develop a mobile and web product software solution, working closely with project managers to design and create a clean and intuitive interface
- Collaborated on a project with load-balanced and auto-scaling server architecture, integrating AWS EC2, for use by over 70,000 students

App Academy, *Software Engineering Instructor*, N.Y. January 2019 – Present

- Supported over 50 unique Capstone Projects with implementation decisions, debugging, and code review
- Developed and taught curriculum for algorithms and data structures

Tutor Tactics, Founder and Lead Tutor, N.Y. January 2016 – September 2018

- Created business that provided customized lessons for over 100 students
- Conducted marketing campaign that increased annual revenue by 20%
- Increased standardized (SAT/ACT) test scores by an average of 17%

PROJECTS

Spoofify (Ruby, Rails, React, Redux, JavaScript, CSS, PostgreSQL)

A full-stack, single-page application for enjoying and discovering music.

- Employed DRY coding techniques and modular architecture to increase readability
- Optimized queries, only accessing the database when necessary, to reduce runtime loading
- Integrated AWS for data retrieval to increase performance and scaling potential

Circle Guy (JavaScript, CSS, HTML)

Live | Repo

A fully-playable, Pac-Man-inspired game

- Built from scratch, using only vanilla JavaScript to manipulate DOM elements
- Integrated ghost AI to track down and cut off 'Circle Guy'
- Utilized tile-grid to re-render only modified elements, increasing performance

Chess (Ruby)

A chess game you can play in your console

 \bullet Built using Object Oriented Programming design principles, including multiple levels of inheritance for chess pieces \square

SKILLS

Frontend: JavaScript (jQuery, AJAX, Flux, React, Redux), HTML5, CSS **Backend:** Ruby (Rails, Rspec), Python, ElasticSearch, SQL, C++, Java **Tools:** Git, AWS

EDUCATION

App Academy, N.Y.

September 2018 – December 2018

- Rigorous 1000-hour full-stack software development course with < 3% acceptance rate.
- Emphasizes coding style, pair-programming, and best practices.

The Macaulay Honors College, Queens, N.Y. September 2011 – June 2015 *Graduated Cum Laude*

- Bachelor of Arts: Applied Mathematics (Honors)
- GPA: 3.5
- Relevant Coursework: Java, C++, Linear Algebra, Probability & Statistics, Number Theory, Abstract Algebra, Vector Calculus, Discrete Math
